

In order to connect to a Zoom video conference from a Polycom room unit, you will need to connect to the main Zoom number, then enter your *Meeting ID* number using the Polycom remote. Here are the steps for doing that.

Polycom to Zoom Instructions for Morgan Hall 102, 218

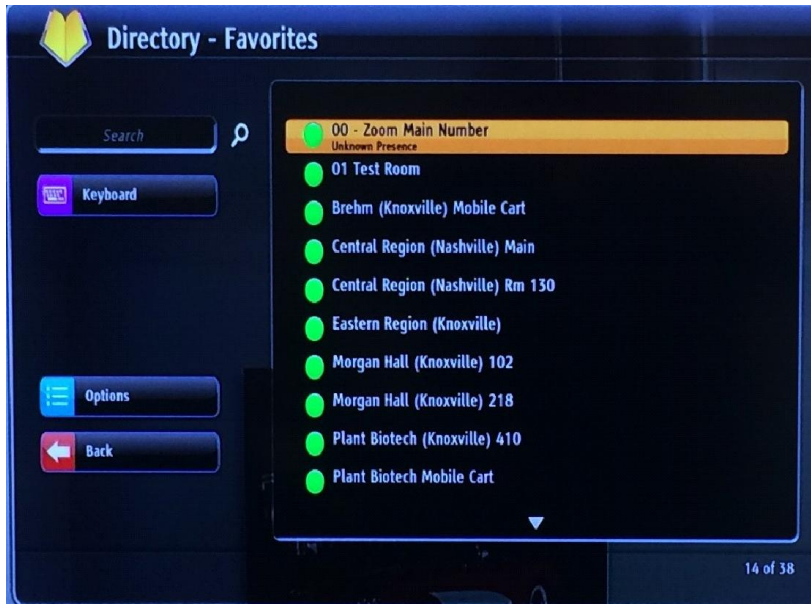

1. Hit Home on the Polycom remote. Select Directory, and press the center button.

2. Select Favorites and press the center button.

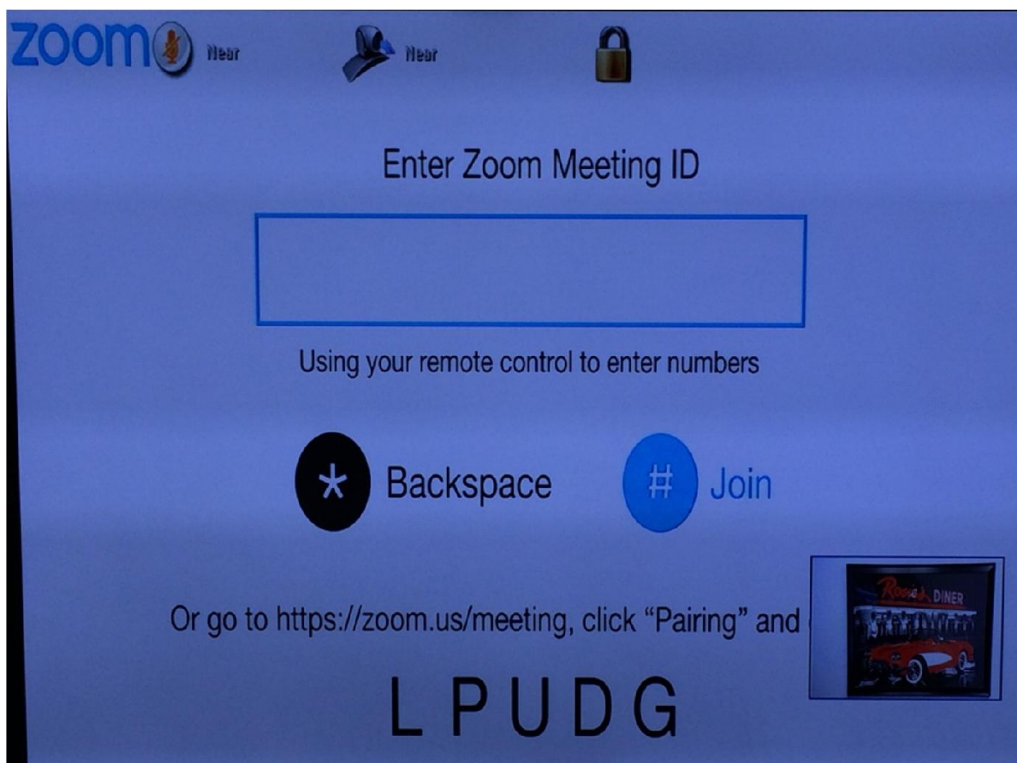

3. Select Zoom Main Number and press the center button (You may have many fewer directory entries than this example shows).

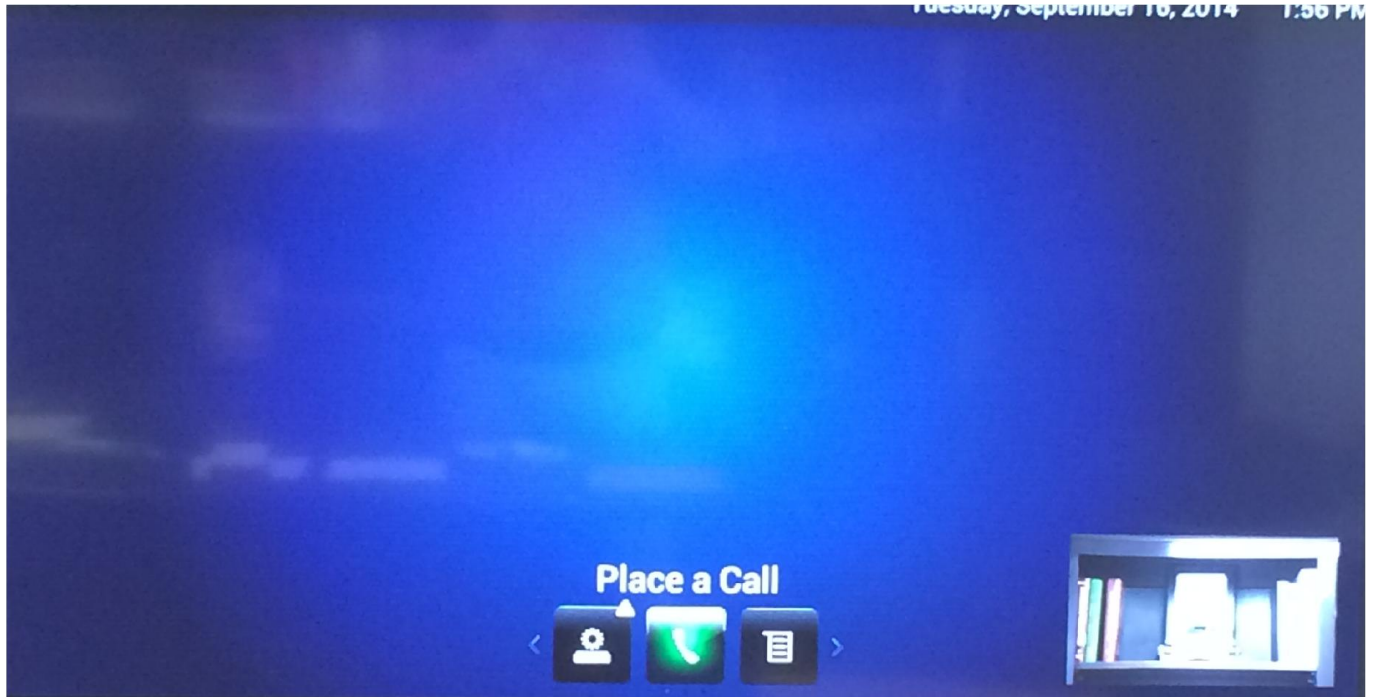

At this point, you will make a connection to the Zoom bridge, and be prompted to enter your *Meeting ID*. You do that by first hitting the **# (pound) key** on the Polycom remote, then entering the *Meeting ID*, then hitting the # key again. Should you need to backspace and correct anything, use the *** (star) key**.

You should now be connected to your meeting.

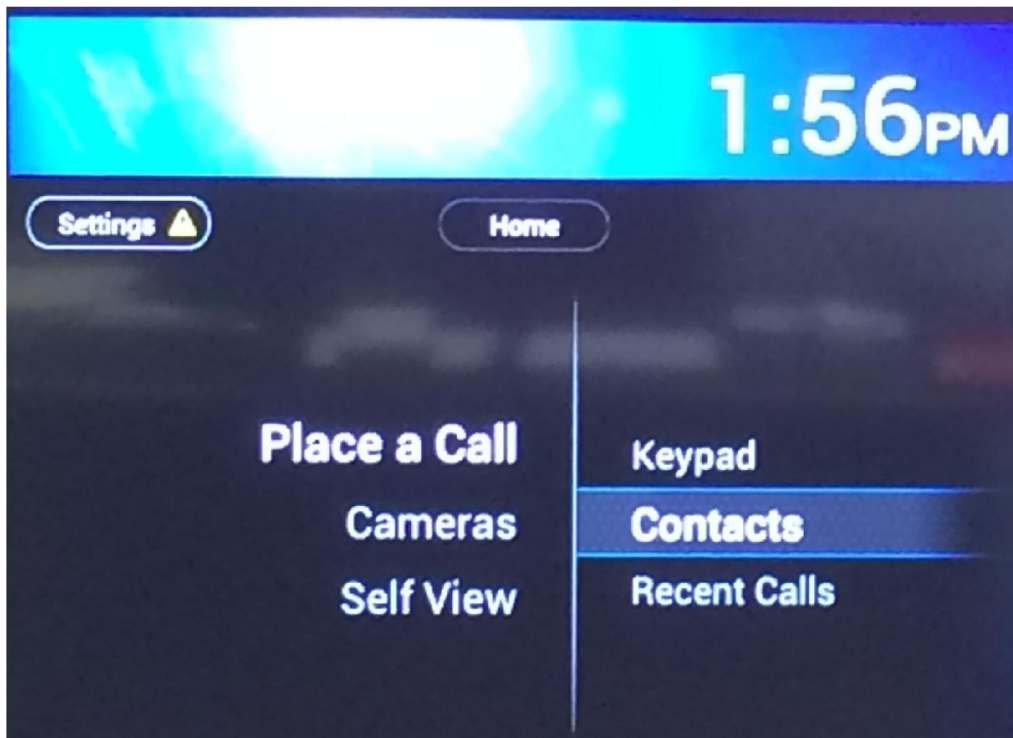

Polycom to Zoom Instructions for PBT 410, Brehm AS Cart

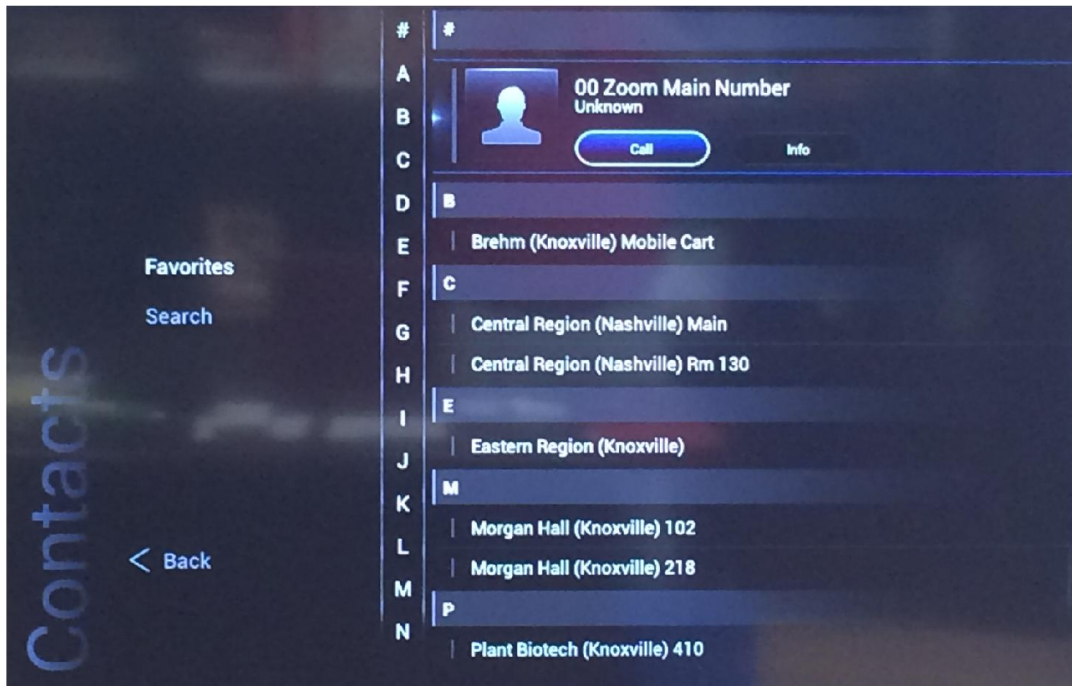

1. Hit Home on the Polycom Remote. Select the icon that looks like a list (Menu) & press the center button.

2. From Place a call, move right to select Contacts and press the center button.

3. Highlight Zoom Main Number (should be the top) and press the center button to call.

At this point, you will make a connection to the Zoom bridge, and be prompted to enter your *Meeting ID*. You do that by first hitting the **# (pound) key** on the Polycom remote, then entering the *Meeting ID*, then hitting the # key again. Should you need to backspace and correct anything, use the *** (star) key**.

You should now be connected to your meeting.
