Employer’s Handler & Worker Roster
for
Worker Protection Training on Farms, Forests, Greenhouse and Nurseries

Instructions:
This form may be used by owners, operators and supervisors of farms, forests, greenhouses and nurseries who train their handlers and workers on the Worker Protection Standards (WPS).

The trainer should keep one copy of this roster and training information in his/her file for two years and send copies to the Tennessee Department of Agriculture and The University of Tennessee Pesticide Safety Education Program office:

Tennessee Department of Agriculture
Certification and Licensing
Box 40627,
Nashville, TN 37204

University of Tennessee
E&PP, PSEP Office
2505 E.J. Chapman Drive, 370 PBB
Knoxville, TN 37996-4560

An exam is not required for handlers or workers, nor are they required to be certified to take the training.

A qualified (certified) WPS trainer in Tennessee is one who is certified as a Private Applicator, Commercial Applicator or has attended WPS Train-The-Trainer Training. Training for WPS Trainers is offered by The University of Tennessee Extension Service, and is highly recommended. Training are available online through the Pesticide Safety Education Web site at: http://psep.utk.edu. All training materials must be EPA approved. Updated materials will have EPA approval numbers provided within presentations and/or printed materials.

GENERAL INFORMATION:

Date of training: ________________________________

Location of Training: ________________________________

Hours of training: ________________________________

Training materials used: ________________________________

( must be EPA approved materials)

Language trained in: ________________________________

TRAINER INFORMATION:

Name: ____________________________________________

Certification no. ________________________________
(If not certified when attended Train-The-Trainer training)

Title: ____________________________________________
(Employer, Extension Agent, VoAg. Teacher)

Address: _________________________________________

Signature: _________________________________________

A Trainer = someone who is certified as a private applicator, commercial applicator or who has attended Train-The-Trainer Training.

A Handler is someone who mixes, loads and/or sprays pesticides. See EPA’s website for a more thorough description.

A Worker is a hand laborer. See EPA’s website for more information.
Rosters should be kept on file for 2 years. A copy should be sent to the Tennessee Department of Agriculture and your local County Extension Office or the PSEP Office (address on page one).

Page 1 of E&PP INFO #346 should accompany this page.
