Expected Outcomes for Feedstock Partnership Meeting
February 27-28, 2008
Hall of States, Washington, DC

1. Task teams present their current planned approach including experimental design for field plots and plot locations to other Task Teams and Feedstock Partnership Leadership.
2. Open discussion leading to revision and finalization of experimental design & plot locations
3. Coordination of activity among task teams
4. Coordination of efforts among Task Teams, SGA, and DOE
5. Near final selection of 2008 research plot locations and understanding of what information is needed for NEPA review so sub-awards can be released.
6. Develop time-line for 2008 Task Team activities. Need to know roles and responsibilities and who is to receive funding.
7. Identification of PI's and institutions to receive sub-awards from SDSU to complete 2008 work.
