Join us for an all-day educational workshop designed for dairy cow, goat and sheep producers who want to add value through processing and manufacturing dairy products.

About the Workshop:

UT Extension, dairy industry specialists and others will discuss:

- Potential for Value-Added Dairy Enterprises in Tennessee
- Calculating Milk Production Costs and Assessing Strengths and Weaknesses
- On-Farm Milk Processing Costs
- Lessons Learned from a Value-Added Dairy Processor
- Dairy Processing Considerations
- Sanitation and Food Safety
- Permitting of Dairy Processing Equipment and Facilities in Tennessee
- Marketing Dairy Products
- Grant Opportunities Through TDA and USDA’s Dairy Business Innovation Initiatives Program
