

## What Program to Take:

If you've never taken the Tennessee Master Nursery Producer (TMNP) program before (or have only taken the live class when it was offered in 2012), enroll in the TMNP program.

If you've graduated from the online TMNP program and need a current certificate for TAEP eligibility, please enroll in the Advanced TMNP (ATMNP) program.

Always take the online TMNP before taking the ATMNP. The ATMNP curriculum builds on concepts taught in the TMNP.

If you are unsure what program to take, please contact [producer.diversification@tn.gov](mailto:producer.diversification@tn.gov) for assistance, as the TDA determines TAEP eligibility.

## What You Need:

- Your account information, if you've registered for a program in K@TE before (for ex., PSEP or TMNP). **Use the same email address and log in for all programs in K@TE!**
- Your nursery license number.

## How to Enroll:

There are screenshots below with step-by-step instructions to make enrolling in the program and registering K@TE easy!

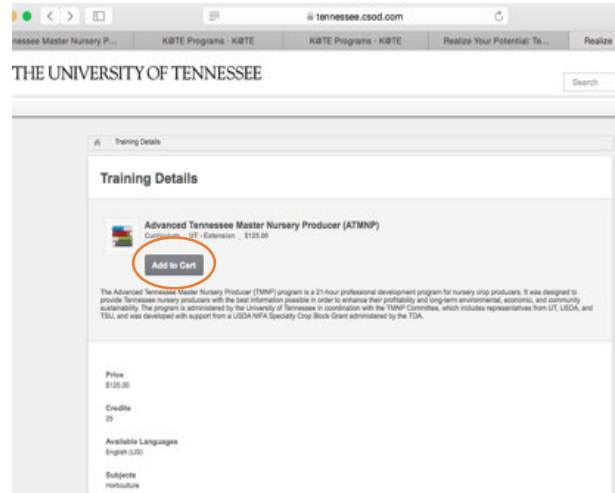

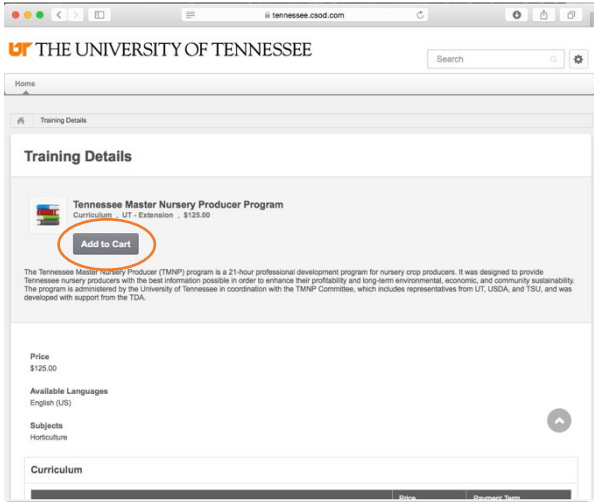

1. [Click Here](#) to visit the K@TE website. Scroll and select either the TMNP or the ATMNP.

The screenshot shows the K@TE website interface. The header includes the University of Tennessee logo and search bar. The main content area is titled "The Institute of Agriculture" and lists several programs. Two programs are circled in red: "Master Nursery Producer Program" and "Advanced Master Nursery Producer Program".

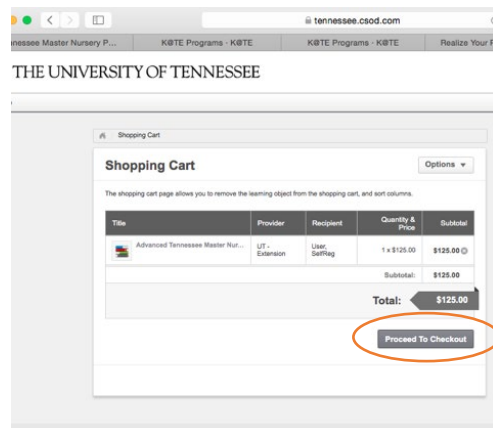

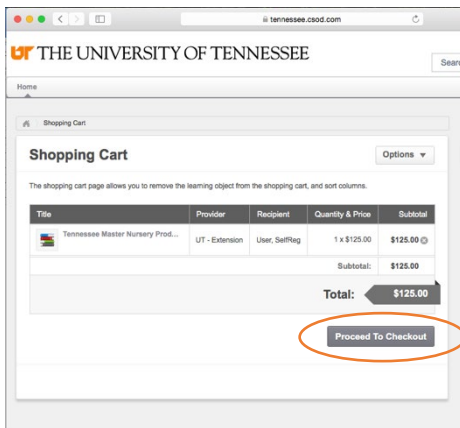

**Master Nursery Producer Program**  
The Tennessee Master Nursery Program (TMNP) is a professional development program designed to provide Tennessee nursery producers with the best information possible in order to enhance their profitability and long-term environmental, economic, and community sustainability.

**Advanced Master Nursery Producer Program**  
The Advanced Tennessee Master Nursery Producer (TMNP) program is a 20-hour professional development program for nursery crop producers. It was designed to provide Tennessee nursery producers with the best information possible in order to enhance their profitability and long-term environmental, economic, and community sustainability. The program is administered by the University of Tennessee in coordination with the TMNP Committees, which includes representatives from UT, USDA, and TSU, and was developed with support from a USDA NRFA Specialty Crop Block Grant administered by the TDA.
