

How the TDA Helps TMNP Graduates Save Additional Money

In spring of 2012, the Tennessee Master Nursery Program Committee requested that the Tennessee Department of Agriculture (TDA) consider supporting a Tennessee Master Nursery Program. Subsequently, the TDA awarded a grant to the committee and approved a 50% cost share in the Tennessee Agricultural Enhancement program (TAEP). Growers who successfully complete the Tennessee Master Nursery Program are eligible for 50% cost share rather than the 35% previously available.

For information on eligibility for the TAEP program, to verify requirements for the TAEP program, or other TAEP questions, please contact:
